# ANCHIT TANDON

Technical Product and Growth Builder

Delhi, India | +91 9873945238 | anchit.tandon@gmail.com

anchit-tandon.com/freelancer | linkedin.com/in/anchit-tandon

## PROFILE

Engineer turned product leader with experience across consumer platforms, subscriptions, sales operations and international ecommerce. Connects problem definition, customer journeys, AI-assisted development and experimentation to deliver useful products and improve conversion, retention and operational efficiency. Currently building Parwah, a family care product for India, and available for freelance builds and fractional product and growth engagements.

## CORE CAPABILITIES

Product discovery and prioritisation • Customer journeys and conversion funnels • AI workflows and internal tools • Web MVPs • Subscription monetisation • Lifecycle and retention • Analytics and experimentation • Cross-functional delivery

## PROFESSIONAL EXPERIENCE

**Parwah, family care for India | Sep 2026 – Present**

- Building one app for the whole family with parents at the centre: daily check-in, SOS, booking anything for them, sending money safely. Designed senior-first, with every share chosen by the parent, visible to them and revocable in one tap.
- Working website live at parwah-hq.anchit-tandon.com; taking select freelance and consulting work alongside it.

**Vahdam India, AGM, Product Management and D2C Growth | Apr 2026 – Sep 2026**

- Led D2C product and growth work across US, UK and global markets, covering customer experience, product performance and revenue optimisation.
- Designed and executed product and CRM experiments, including lifecycle campaigns through Klaviyo and WebEngage and customer-rating improvement initiatives.
- Helped build a customer lifecycle and retention OS that links analytics, planning, segmentation and mailer generation in one loop, and helped lift UK marketing revenue in the first two months.

**Times Internet | Jun 2022 – Apr 2026**

Senior Product Manager | Apr 2025 – Apr 2026

Product Manager | Oct 2023 – Mar 2025

Associate Product Manager | Jun 2022 – Oct 2023

**Assisted conversion and subscriptions**

- Scaled Economic Times assisted-sales monthly revenue from INR 15 lakh to INR 80 lakh through funnel redesign and continuous experimentation; delivered 400%+ ROI within six months for ET Prime’s structured assisted-conversion funnel.
- Built AI TeleSuite for call transcription, quality scoring and pitch assistance to support conversion consistency across high-intent traffic.
- Introduced Assisted Buying features, increasing qualified leads from approximately 30 to 150+ per day; improved subscriber retention by 10% through onboarding and engagement experiments.

**Consumer platforms and new product launches**

- Led the ET Markets web and mobile-web revamp, improving engagement by 27% and unlocking INR 3 crore+ in incremental annual revenue.

- Revamped ET Markets Android and iOS apps, increasing daily active users by 25% and average session duration by 15%.
- Launched paid wellness subscriptions for Times Health Plus and led discovery, registration and acquisition journeys for the Times Internet Half Marathon.

## EARLIER EXPERIENCE

**Citymall, Software Engineer | Mar 2022 – Jun 2022**

- Supported data pipelines and backend systems for consumer commerce platforms.

**Tuple Technologies, Software Engineer | Apr 2020 – Mar 2022**

- Built and scaled backend services for consumer-facing applications.
- Owned an early live sports commentary product, connecting product decisions with technical delivery.

## SELECTED INDEPENDENT PRODUCT BUILDS

AI-assisted development across personal products and prototypes, with scope spanning product design, application workflows and integrations.

**Third Eye, Personal AI assistant**

- Built a Next.js and Supabase application with tool calling, memory, tasks and Google integration, exploring how a personal assistant can connect information with actions.

**Lifecycle OS, Marketing workflow application**

- Developed multi-brand workspace and campaign workflows, including publishing and dispatch code. Focused on connecting planning, content and operational execution.

**The Passion Table, Subscription and ordering product**

- Developed subscription, ordering and operational workflows for a food-service concept, including a test-mode payment journey. Independent product in development.

## ENGAGEMENT FOCUS

- AI workflows and internal tools: call review, knowledge assistants, reporting dashboards and scoped integrations with human review.
- Conversion-focused websites: offer clarity, enquiry or purchase journeys, integrations and measurement.
- Fractional product and growth: prioritisation, launches, conversion experiments and subscription or ecommerce retention.
- Focused web MVPs: one core customer journey, agreed acceptance criteria and a usable handover.

## EDUCATION

**B.Tech in Computer Science and Engineering | 2016 – 2020**

Vellore Institute of Technology, Vellore
