Anchit Tandon

Technical Product and Growth Builder

Delhi, India | +91 9873945238 | anchit.tandon@gmail.com | anchit-tandon.com | linkedin.com/in/anchit-tandon

PROFILE

Engineer turned product leader across consumer platforms, subscriptions, sales operations and international ecommerce. I connect problem definition, customer journeys, AI-assisted development and experimentation to ship products that lift conversion, retention and operational efficiency. Currently building Parwah, a family care product for India, and available for freelance builds and fractional product and growth engagements.

CORE CAPABILITIES

Product discovery and prioritisation · Customer journeys and conversion funnels · AI workflows and internal tools · Web MVPs · Subscription monetisation · Lifecycle and retention · Analytics and experimentation · Cross-functional delivery

PROFESSIONAL EXPERIENCE

Parwah, family care for India — Sep 2026 to Present

- Designing and building one app for the whole family with parents at the centre: daily check-in, SOS, booking anything for them and sending money safely.
- Built senior-first (big type, voice-first, three actions per screen) with consent as the product: every share is chosen by the parent, visible to them and revocable in one tap.
- Working website live at parwah-hq.anchit-tandon.com, with a real person to talk to on WhatsApp.

Vahdam India — Apr 2026 to Sep 2026

AGM, Product Management and D2C Growth — US, UK and global markets

- Led D2C product and growth across US, UK and global markets, covering customer experience, product performance and revenue optimisation.
- Ran product and CRM experiments, including lifecycle campaigns on Klaviyo and WebEngage and customer-rating improvement initiatives.
- Helped build a customer lifecycle and retention OS that links analytics, planning, segmentation and mailer generation in one loop, and helped lift UK marketing revenue within the first two months.

Times Internet — Jun 2022 to Apr 2026

Senior Product Manager — Apr 2025 to Apr 2026

Product Manager — Oct 2023 to Mar 2025

Associate Product Manager — Jun 2022 to Oct 2023

Assisted conversion and subscriptions

- Scaled Economic Times assisted-sales monthly revenue 5×, from INR 15 lakh to INR 80 lakh, through funnel redesign and continuous experimentation; delivered 400%+ ROI within six months on ET Prime's structured assisted-conversion funnel.
- Built AI TeleSuite for call transcription, quality scoring and pitch assistance, standardising conversion execution across high-intent traffic.
- Launched Assisted Buying, growing qualified leads from about 30 to 150+ a day; lifted subscriber retention by 10% through onboarding and engagement experiments.

Consumer platforms and new product launches

- Led the ET Markets web and mobile-web revamp, lifting engagement by 27% and unlocking INR 3 crore+ in incremental annual revenue.
- Revamped the ET Markets Android and iOS apps, growing daily active users by 25% and average session duration by 15%.
- Launched paid wellness subscriptions for Times Health Plus, and drove discovery, registration and acquisition journeys for the Times Internet Half Marathon.

EARLIER EXPERIENCE

Citymall Mar 2022 to Jun 2022

Software Engineer

- Supported data pipelines and backend systems for consumer commerce platforms.

Tuple Technologies Apr 2020 to Mar 2022

Software Engineer

- Built and scaled backend services for consumer-facing applications.
- Owned an early live sports commentary product, connecting product decisions with technical delivery.

SELECTED INDEPENDENT PRODUCT BUILDS

AI-assisted development across personal products and prototypes, spanning product design, application workflows and integrations.

Third Eye, personal AI assistant the-third-eye.anchit-tandon.com

- Built a full-stack Next.js and Supabase assistant with tool calling, memory, tasks and Google integration, connecting personal context with actions it can take.

Lifecycle OS, marketing workflow application lifecycle-os.anchit-tandon.com

- Built a multi-brand workspace and campaign workflow that links planning, segmentation, content and dispatch in one pipeline.

The Passion Table, subscription and ordering product In development

- Built subscription, ordering and fulfilment workflows for a food-service concept, including a test-mode payment journey.

ENGAGEMENT FOCUS

- AI workflows and internal tools: call review, knowledge assistants, reporting dashboards and scoped integrations with human review. **Proof:** AI TeleSuite helped scale assisted-sales revenue from INR 15 lakh to INR 80 lakh a month.
- Conversion-focused websites: clear offer positioning, enquiry or purchase journeys, CRM integrations and full-funnel measurement. **Proof:** The ET Markets web revamp lifted engagement 27% and unlocked INR 3 crore+ in incremental annual revenue.
- Fractional product and growth: roadmap prioritisation, zero-to-one launches, conversion experiments and subscription or ecommerce retention. **Proof:** 400%+ ROI within six months on an assisted-conversion funnel; subscriber retention up 10%.
- Focused web MVPs and journeys: one core customer journey shipped end to end, with agreed acceptance criteria and a clean handover. **Proof:** Assisted Buying took qualified leads from about 30 to 150+ a day; the app revamp grew daily active users 25%.

EDUCATION

B.Tech, Computer Science and Engineering 2016 to 2020

Vellore Institute of Technology, Vellore
