# Anchit Tandon

**Product & D2C Growth · Building Parwah**

Delhi, India | +91 98739 45238 | anchit.tandon@gmail.com | anchit-tandon.com | linkedin.com/in/anchit-tandon

Engineer turned product leader, five years across consumer platforms, subscriptions, assisted sales and international D2C. I scaled an assisted-sales channel 5× to **₹80L MRR**, rebuilt ET Markets into **₹3Cr+ incremental ARR**, and launched a consumer IP from zero for 15,000+ participants. Now building Parwah solo, and open to freelance and fractional product and growth work alongside it.

## CORE CAPABILITIES

Growth funnels and conversion optimisation · Subscriptions and monetisation · Lifecycle and retention · A/B testing and experimentation · Consumer product, web and mobile · AI workflows and LLM integration · Analytics and instrumentation · Backend engineering (Node, Python)

## EXPERIENCE

### Founder and Product Lead, Parwah

Sep 2026 – Present

Family care for India · solo build · live at parwah-hq.anchit-tandon.com

- Building one app for family care with parents at the centre, owning product, design, the build and the consent model that decides what the product will and will not do.
- Consent is the product: every share is chosen by the parent, visible to them and revocable in one tap. Built senior-first, with large type, voice-first interaction and three actions per screen.
- Live as a website for families and improving against real use. Taking freelance and consulting work alongside it.

### AGM, Product Management and D2C Growth, Vahdam India

Apr 2026 – Sep 2026

US, UK and global markets · premium D2C tea, shipping to 100+ countries

- Owned D2C growth across the US, UK and global markets, covering customer experience, product performance and revenue.
- Helped build a customer lifecycle and retention OS threading analytics, planning, segmentation and mailer generation into a single loop.
- Ran product and CRM experimentation through Klaviyo and WebEngage; lifted UK marketing revenue within the first two months.

### APM → PM → Senior Product Manager, Times Internet

Jun 2022 – Apr 2026

**Times Internet Delhi Half Marathon** · Senior PM, Apr 2025 – Apr 2026

- Launched a first-time consumer IP from **0→1** for **15,000+ participants** at Dhyan Chand National Stadium, owning discovery, registration and acquisition funnels end to end across tech, marketing and on-ground.

**Assisted Sales, ET Prime** · PM → Senior PM, 2024 – Apr 2026

- Scaled assisted-sales monthly revenue **5×, from ₹15L to ₹80L MRR**, through funnel redesign and continuous A/B experimentation; **400%+ ROI within six months**. Times Internet Team Award, 2025.
- Built AI TeleSuite for live call transcription, quality scoring and pitch assistance, making conversion consistent across high-intent traffic.

**Times Health+ subscriptions** · PM, 2024 – 2025

- Launched paid wellness subscriptions from scratch: freemium-to-paid journeys, pricing experiments and retention-led monetisation, opening a new revenue line.

**ET Markets rebuild** · APM → PM, 2022 – 2024

- Led the ET Markets web and mWeb revamp: **+27% engagement** and **₹3Cr+ incremental annual revenue**.
- Revamped the Android and iOS apps: **+25% DAU**, **+15% average session duration**, and **+19% screen views** from new discovery and decision-support features.

**Assisted Buying, Economic Times** · APM, 2022 – 2023

- Introduced assisted-buying surfaces for high-intent users, lifting qualified leads from **~30 to 150+ per day**; A/B experimentation across onboarding and engagement improved subscriber retention by **10%**.

### Software Engineer, Citymall

Mar 2022 – Jun 2022

- Backend systems and data pipelines for consumer commerce platforms.

### Software Engineer and Product Owner, Tuple Technologies

Apr 2020 – Mar 2022

- Built and scaled backend services for consumer-facing applications; owned an early live sports commentary product as Product Owner, connecting product decisions to technical delivery.

## INDEPENDENT PRODUCT BUILDS · LIVE

- **LifeCycle-OS** · benchmarks any brand's category and generates a complete, ready-to-run lifecycle marketing plan.
- **Parwah** · replaces chaotic family WhatsApp threads with clear ownership of every parent-care task.
- **Predict Natural Disasters** · a live global hazard map on 8 official sources that grades its own forecasts against what happened.
- **AI TeleSuite** · call transcription, AI pitch scoring and coaching for sales teams.
- **Animind** · reads animal behaviour from short audio and video clips.
- **TH+ LifeEngine** · personalised yoga and food plans drafted by one AI and checked by another.
- **MusicGenAI** · type a prompt, get a full song with vocals.
- **Shoutout** · one platform where indie musicians find gigs, collaborators and auditions.
- **JobHunt** · an AI agent that runs the job search for you.
- **The Third Eye** · a personal AI OS with memory, tools and voice across tasks, notes, calendar and email.
- **LoosenUp** · two-minute stress relief showing a before and after calm score, with SOS on every screen.
- **Edu AI** · an AI-first learning planner from birth to Class 12, with JEE, NEET and study-abroad tracks.
- **Hey Yaara** · a Hinglish AI voice companion you can call and talk to.
- **Airpane** · an AR browser that floats any website in your room, no headset needed.
- **Markets Pro** · a trading research engine for 4 markets with real costs built in, paper trading only.
- **Kolab** · a creator and brand platform with social login and an analytics dashboard.
- **ANCHOR** · a robot that releases a new techno track on YouTube every day, at zero cost.

## EDUCATION

**B.Tech, Computer Science and Engineering** · Vellore Institute of Technology, Vellore — 2016 – 2020

Every build above is live and linked at anchit-tandon.com, each with a case study.
